is a constitutional disease, a corruption of the blood, by which this fluid becomes vittated, weak, and poor. Being in the circulation, is purvades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The serofulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. What-ever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the red of him who says, "I will visit the infiguities of the fathers upon visit the iniquities of the fathers upon

their children." Its effects commence by deposition from the blood of corrupt or ulcrous matter, which, in the langs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, craptions or sore. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that arofulous constitutions not only suffer from scrofulous com-plaints, but they have far less power to withwhich, although not scrofulous in their nature, are still rendered fatal by this taint in the

We are enabled here to offer the community a remedy which, while it cores the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Curr" expels the minamatic poison of Fryer and Agur from the system, and prevents the development of the disease, if taken on the first approach of its premoutory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we simply for a dollar brings it within the reach of every body; and in billous districts, where Fryer and Agur prevails, every body should have it and use it freely both for cure and protection. A great superiority of this remedy over any other ever discovered for the speedy and certain care of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or We are enabled here to offer the community a
